Select Wall Street Research Updates and Commentary

Update from Raymond James, July 2019

S&P Global

We maintain our Outperform rating and increase our target price on S&P Global to \$246 from \$226 ahead of the firm's 2Q19 earnings release. We anticipate mixed results in 2Q19: depressed leveraged loan and structured finance issuance volumes will weigh on Ratings segments revenues, offset by strength in high-yield bond issuance. In S&P's Indices segment, market appreciation boosts our outlook for asset-based revenues. Bigger picture, we continue to believe that S&P will deliver consistent double-digit y/y EPS growth due to pricing power, business model diversification, and long-term margin expansion.

Update from Citi, July 2019

BLACKROCK®

According to management, the CEF expense will be included in adjusted earnings, but excluded from the operating margin – we estimate ~44%. While a slight headwind to earnings near term, the transitory costs should be more than offset by benefits of the higher fee vehicle, in our view.

Update from Credit Suisse, July 2019

Goldman Sachs Goldman Sachs will report second-quarter results Tuesday morning. Our 2Q19 estimate stands at \$4.90 per share; the Street is at \$4.89 (consensus ranges from \$4.34-\$5.52). Our \$8.7bn aggregate revenue forecast reflects decent market conditions—less trading and investment banking revenue; stronger I&L and investment management revenue. Keeping in mind both year-to-date revenue momentum and this year's higher level of investment spending, we're assuming comp is accrued at 37% (in line with 1Q19) with non-comp expense at ~\$2.6bn for the quarter. All-in, our forecast translates to an ROTE of ~10%.

CREDIT SUISSE

Update from Citi, July 2019

CS has reported 2Q19 underlying PBT of SFr0.9bn, in-line with Citi estimates, but 15% ahead of consensus. 2Q19 RoTE has therefore risen to 9.7% vs 6.9% in 2Q18 and 7.8% in 1Q19. U/lying revenues are 3% ahead, while costs are 1% heavy. By division, the beat is driven by Global Markets and APAC Wealth Management. Capital is in-line with consensus. Reiterate Buy, target price SFr16.0.

Moody's

Update from Raymond James, July 2019

We maintain our Market Perform rating on Moody's as we update our estimates ahead of the firm's 2Q19 earnings release. We continue to remain on the sidelines as we believe Moody's current valuation (22x our 2020 EPS estimate) fairly reflects the firm's strong competitive position against the volatile issuance environment. Weakness in leveraged loan and structured finance issuance activity to start 2019 highlights the headwinds Moody's currently faces, although high yield issuance has been healthy year-to-date and lower interest rates may help prolong the credit cycle
